

OC9 — Android APK Installation & Setup Guide

Official OC9 Installation Manual

WELCOME TO OC9

Thank you for testing OC9. This guide walks through the complete APK installation and Android device preparation process required for stable long-term OC9 operation.

OC9 is designed as a long-running automated trading engine built around structured execution, operational discipline, and continuous monitoring.

ESTIMATED SETUP TIME

- ~10–20 minutes

DIFFICULTY LEVEL

- Beginner Friendly
- No coding required

BEFORE YOU START

- Android tablet
- Stable Wi-Fi connection
- Kraken account
- Email access
- 15–20 minutes available for setup

CURRENTLY SUPPORTED

- Android tablets
- Android 9 or newer
- Landscape tablet layouts
- Continuous runtime operation
- Kraken exchange integration

CURRENTLY NOT SUPPORTED

- ❌ iPhones
- ❌ iPads / iOS devices
- ❌ Desktop operating systems
- ❌ Standard phone layouts
- ❌ Amazon Fire OS devices (unless verified compatible)

STEP 1 — DOWNLOAD THE OC9 APK

- Download the latest OC9 APK directly from the official OnTheCouchStudio distribution source.
- Save the APK locally on your Android device.
- Only install APK files distributed directly by OnTheCouchStudio.

STEP 2 — ENABLE UNKNOWN APP INSTALLATION

- Open Settings → Security → Install Unknown Apps.
- Enable permissions for Chrome, Samsung Internet, or your File Manager.
- Android requires this permission because OC9 installs outside the Play Store.

STEP 3 — INSTALL OC9

- Locate the downloaded APK file.
- Tap the APK and select Install.
- Wait for installation to complete.
- Open OC9 once installation finishes.

STEP 4 — CONNECT KRAKEN API

- Log into Kraken and create a new API key.
- Enable trading permissions only.
- NEVER enable withdrawal permissions.
- Paste the API Key and API Secret into OC9.
- Recommended: Create a separate Kraken account dedicated to OC9 automation.

STEP 5 — DEVICE STABILITY PREPARATION

- Disable battery optimization for OC9.
- Allow unrestricted background activity.
- Disable sleeping apps and adaptive battery features.
- Keep the device charging during operation.

- OC9 is designed for long-running operational uptime.

STEP 6 — START OC9

- Complete onboarding.
- Configure strategies and base capital.
- Start with small testing capital.
- Review operational safety settings before live runtime.

IMPORTANT SECURITY RULE

OC9 should NEVER have withdrawal permissions enabled on Kraken API keys. OC9 only requires account access, balance access, and trading permissions.

LONG-TERM OPERATION GUIDANCE

- Keep device charging continuously
- Maintain stable Wi-Fi connectivity
- Avoid unnecessary applications
- Avoid aggressive battery-saving modes
- Minimize restarts during runtime
- Use a dedicated OC9 tablet whenever possible

IMPORTANT SAFETY NOTES

- • OC9 executes trades automatically.
- • Cryptocurrency trading involves financial risk.
- • Past performance does not guarantee future results.
- • Users remain responsible for exchange security and risk management.

DISCLAIMER

OC9 is experimental software currently under active development. OC9 does not guarantee profits or uninterrupted operation. Users remain solely responsible for operational monitoring, exchange security, device maintenance, and financial decisions.
