

# OC9 Quick Start Guide

## Fast Beginner Onboarding Manual

Get OC9 operational in approximately 5–10 minutes.  
Designed for beginner onboarding and first-time setup.

## WELCOME TO OC9

OC9 is a structured automated trading engine designed around continuous operation, disciplined execution, and operational stability.

This Quick Start Guide walks through the fastest path from installation to first operational startup using Kraken exchange integration.

## BEFORE YOU START

- Android tablet or compatible Android device
- Stable Wi-Fi connection
- Kraken exchange account
- Valid email address
- 10–15 minutes available for setup

## STEP 1 — INSTALL OC9

- Download the latest OC9 APK from the official OnTheCouchStudio website.
- Install the APK on your Android device.
- Follow the full APK Installation Guide if detailed instructions are needed.

## STEP 2 — OPEN THE APP

- Launch OC9 from the Android app drawer.
- Allow any required startup permissions.
- Complete initial startup preparation.

## STEP 3 — CONNECT YOUR EXCHANGE

- Open the Settings section inside OC9.
- Enter your Kraken API Key and API Secret.
- Ensure the Kraken API key has trading permissions enabled.
- NEVER enable withdrawal permissions.

## **STEP 4 — CONFIGURE YOUR BOTS**

- Set base capital amounts for each bot.
- Choose your preferred strategy mode.
- Neutral mode is recommended for beginners.
- Start with small testing amounts until comfortable with system behavior.

## **STEP 5 — START THE ENGINE**

- Review your settings carefully.
- Enable execution.
- OC9 will begin monitoring markets automatically.
- Trades execute according to configured rules and operational protections.

## **STEP 6 — LET OC9 RUN**

- For best results, use a dedicated Android tablet.
- Keep the device connected to stable internet.
- Keep the device charging during runtime.
- OC9 is designed for long-term continuous operation.

## **RECOMMENDED BEGINNER SETTINGS**

- ✓ Use small starting capital
- ✓ Monitor behavior during first few days
- ✓ Avoid changing strategies too frequently
- ✓ Allow the system time to operate
- ✓ Review weekly performance summaries

## **IMPORTANT SAFETY REMINDERS**

- • OC9 executes trades automatically
- • Cryptocurrency trading involves financial risk

- • Past performance does not guarantee future results
- • Users remain responsible for exchange security and risk management

## WHAT HAPPENS NEXT

After onboarding is complete, users can continue into deeper operational documentation, strategy references, Google Sheets reporting, performance monitoring, and long-term runtime optimization guides inside the OC9 Knowledge Base.

## DISCLAIMER

OC9 is experimental software currently under active development. OC9 does not guarantee profits, successful trades, or uninterrupted operation. Use responsibly and begin with small testing capital.
